

**ADDRESS**

**Centre for Asian and Transcultural Studies (CATS)**  
Vossstr. 2  
DE 69115 Heidelberg (Bergheim)

**GETTING THERE**

**By car coming from the highway**

At the end of the A656 highway, turn left towards Neuenheim / Universitätsklinikum, then turn right on the main road (Neckar-riverside) for approx. 1 km. At the signpost "PSYCHIATRIE" or "P15" turn right into Thibautsstraße and enter the car park P15.

**By public transport from Central Station**

From the main station take bus 34 (direction "Heiligkreuzsteinach") to the stop "Altes Hallenbad". Change the street side and continue on "Bergheimer Straße" to "Hospitalstraße". Turn left and at the end of the street turn right into the campus until you reach the CATS.

**REGISTRATION**

03:00 p.m.	End of the symposium

\* German is spoken in these meetings and workshops.

Dear Colleagues, Ladies and Gentlemen,

We are pleased to welcome you to Heidelberg for the second meeting of the BMBF research consortia "Behavioral disorders related to violence, neglect, maltreatment and abuse in childhood and adolescence".

We could attract outstanding international researchers to join this meeting and to give lectures on the consequences of childhood trauma, ranging from the analysis of early parent-child relationship to neuroscientific findings up to appropriate interventions. A focus of this meeting will be the diagnosis of traumatic experiences in children, adolescents and adults with the possibility to train project staff in most suitable methods. You can also present data from your research on posters.

It is very important to us to invite also persons concerned including members of self-help groups and to encourage communication with scientists.

We look forward to welcoming you in Heidelberg and to continue our exchange.

Sabine Herpertz, Lars White, Nina Heinrichs

Coordinators of the cross-sectional project Diagnostics and the UBIKA team
